CosmiKids - Empowering Moms on and after Mother's Day

LOS ANGELES--([BUSINESS WIRE](#))--For most mothers across the country the Mother's Day celebrations will begin and end on Sunday. After the flowers and perhaps the lunch, they will be left alone for the rest of the year to juggle their commitments to work and to raising their children. However, this year could be different. CosmiKids, the child-enrichment specialists based in Los Angeles is launching **Inspired Parenting Play Groups™** - a brand new way to bring mothers together that is fun for the kids and a simple, fulfilling way to earn money for mom.

With many years in the child-enrichment arena, CosmiKids is aware that many mothers get together with other moms in their neighborhoods for play dates, networking and support often using this time to share problems and discuss all aspects of parenting and its challenges. **Inspired Parenting Play Groups™** offer enterprising moms a chance to formalize these get-togethers. The home based groups and the host mom are provided all the state-of-the-art resource materials they would need to hold playgroups for the under 5's. Through **Inspired Parenting Play Groups™** CosmiKids enables moms to generate an income stream without leaving the comfort of their own homes, *and* make a real difference in the world inspiring other moms to become the best informed moms they can be.

As well as continued support through its nationwide network, **Inspired Parenting Play Groups™** provides the host mom age-appropriate games, activities, and know-how along with the latest up to the minute information, products and research that is specifically designed to assist children in building their social skills and Emotional IQ. Along with all the necessary support material, play group hosts and their members receive a free quarterly copy of **Inspired Parenting Magazine**, packed with articles from leading physicians, psychologists, nutritionists and educators from around the world as well as interviews with celebrity parents who face the same challenges as regular moms.

Inspired Parenting Play Groups™ - First play dates are FREE, many hosted by an Inspired Parenting facilitator. Continuing sessions featuring host moms running the play date in their homes cost \$20 for a 2 hour play session.
